How a Bachelor Girl Provides for Herself

THERE are so many cozening tricks by which a single girl can support herself in comfort and style, that it is no wonder that many a young man, who is a bachelor, is surprised to find that his girl friend is not only a good housekeeper, but a good cook, and a good manager of her money.

PRINCESS MARGARET'S WEDDING GOWN A DREAM IN PRICELESS IRISH LACE

Sketched by Special Permission of Her Royal Highness

HERE is an exact picture of the marvelous wedding gown of Princess Margaret of Connaught, drawn from sketches made by special permission of Her Royal Highness just before her recent wedding to Prince Gustavus Adolphus of Sweden.

Among her gowns is one, tailor-made, with strapings of the cloth forming a sort of a skirt, the lower part of the jacket has a gilet of yellow cloth, embroidered with velvet collar and quaint perovian buttons.

Almost every American girl knows how to make a good gown, but how to make a gown that is a simple method. Here is a simple method.

Heat a jug, then pour in a heaping dessertspoonful of coffee for each cup required. Pour boiling water on it, let it stand for two minutes on the stove, pour backwards and forwards violently in a cup to clear. This is the way a Frenchman obtains a delightful flavor.

House-made cakes are a real treat once in a while. Perhaps the healthiest way to make a few home's own of her own. This is a good cake recipe.

Beat two eggs thoroughly on which drop a teaspoonful of oil and a cup of sugar. Beat the whites of the eggs and add a tablespoonful of butter and a cup of sugar.

Put two cups of sifted flour into a sieve with three teaspoonfuls of baking powder, and after thoroughly mixing, add to the sugar and butter mixture.

Season with light grating of nutmeg and bake in a moderate oven for twenty minutes.

(Drawn from Sketches Made by Special Permission)

Her wedding gown was of shimmering white satin and very fine Carrickmacross lace, the latter the gift of the ladies of Ireland. The lace, in the shape of a deep plume, took the form of an overdress falling from the waist and disappearing under the very long satin train. The bridemaids were all dressed in simple gowns of soft English satin, dyed Irish blue of the shade of the ribbon of St. Patrick.

"Then why have you been dragging all this up?" she asked. "What did you think I was doing?" he asked.

"What is it?" she asked. "I don't know," he said. "I don't know," he said. "I don't know," he said.

"What is it?" she asked. "I don't know," he said. "I don't know," he said. "I don't know," he said.

Should a Husband Be Allowed One Evening a Week With Friends?

SHOULD a wife permit her husband to have one evening a week with his friends, without objection on her part? Following is "Dorchester" letter and the answer by Rev. Mr. George:

"Dorchester" asks the Rev. A. E. George to answer the question in the BOSTON AMERICAN. Mr. George's reply was that a man should have one evening a week to himself; that a man who felt compelled to remain at home every evening was hampered.

The question and the answer has aroused discussion. There are opinions of both sides. It is an interesting domestic question to be answered by both husbands and wives.
